Please be aware that all buildings are supplied untreated and require prompt treatment post fitting. We cannot be held responsible for any damage caused by lack of treatment. All timber products have the ability to move or split, this is perfectly natural and shouldn't reduce the strength or suitability of the board. We hand choose all our materials but in the unlikely case of serious defects we will replace the defective area though our liability is limited to the defect and we cannot be held responsible for any consequential costs or losses.

Prices correct at the time of going to press, but are subject to change without prior notice. All goods remain the property of the vendor until full payment has been received.

Whether you're looking for a place to relax, work, or play, log cabins are a versatile, affordable and increasingly popular way to use space in your garden to enhance your lifestyle.

At Earnshaws, we've developed our new Cabin Collection to ensure that whatever you have in mind for your log cabin, we can create the perfect building for you.

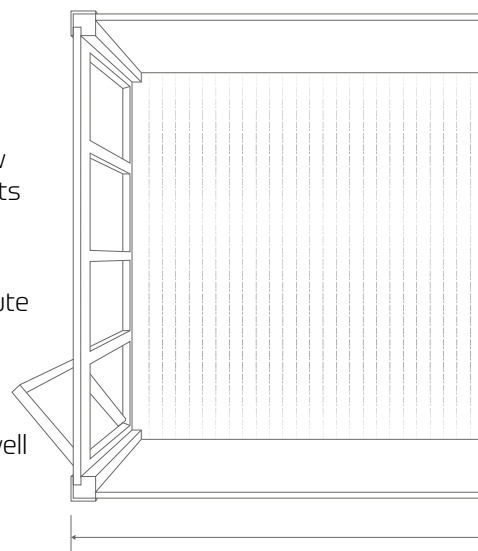

How will you use yours?

We're with you every step of the way!

We understand that purchasing a log cabin is likely to be a once in a lifetime occurrence. We don't expect you to be an expert (although we don't mind if you are) – that's why we've made the process of choosing your log cabin as straightforward as possible.

- **Top quality comes as standard.**
Rest assured that all of our cabins are built to the same high specification including 45mm log walls, 28mm flooring and 21mm roof boards. No skimping on timber here.
- **Superior fixtures and fittings.**
Insurance grade locks, high quality polyester-based felt and quality glazing. We don't build our cabins to be the cheapest on the web – we build in quality and care as standard.
- **Simple, honest pricing.**
All our cabin prices include floors, roofs, delivery and fitting – you'd be surprised how many companies offer these as 'optional extras'! We don't supply build-it-yourself kits because we want to make sure your cabin goes up, and stays up, without a hitch.
- **On-site displays.**
Read every specification on the internet that you can – but there's really no substitute for touching, feeling and stepping inside our cabins. That's why we've assembled a comprehensive selection of display models across our three centres.
- **Dedicated, on-site cabin experts.**
Whether your local Earnshaws branch is at Midgley, Wentworth, or Brigg, we have well trained staff at each of our three sites to inform and advise at every turn. And if we don't know the answer – we can go direct to source and find out.
- **Manufactured in Yorkshire.**
We've teamed up with experienced local craftsmen who manufacture all our log cabins in a dedicated workshop at our Wentworth centre.

Designed around you

Our Cabin Collection is composed of four clearly defined models, designed to meet your needs whilst adding a touch of flair and originality to your garden.

INTRODUCING OUR CABIN COLLECTION

The **Middleton**

Traditional log cabin built especially for you

- Relax, work, study or play
- Traditional log cabin styling
- Wide range of sizes, doors and windows

The **Arcadia**

The only limitation is your imagination

- A true living space – in your garden
- Contemporary, sloping roof design
- Potential to be fully insulated for year round use
- Totally bespoke build from planning to construction

The **Highfield**

The shed of sheds

- Robust workshop, hobby room, or serious storage
- Two roof styles to choose from
- Simple, off-the-peg sizing and pricing

The **Highfield Plus**

The ultimate flexible workspace

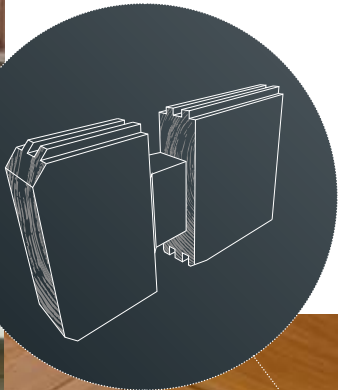

- Large footprint workshops, garages + much more
- Tough, durable and functional
- Totally bespoke build

The Middleton

Traditional log cabin built especially for you

We only use premium grade interlocking, tongue and groove timber to build our cabins!

- Relax, work, study or play
- Traditional log cabin styling
- Wide range of sizes, doors and windows

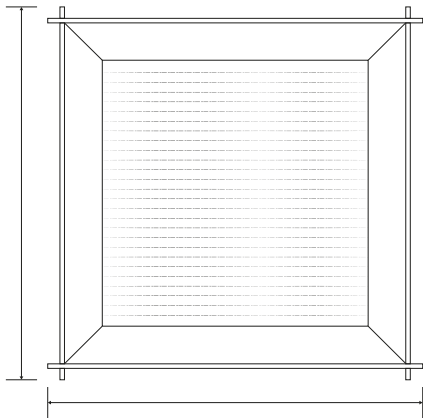

All of our cabins are built to the same high specification featuring 45mm log walls, 28mm flooring and 21mm roof boards and insurance grade locks... as standard!

The Middleton is a traditionally styled log cabin with classic ‘chalet style’ front- yet versatile enough to use whether you intend to relax, work, study or play.

We understand that everybody’s requirements and situations are different and compiling a range of predefined cabins to suit everyone is an impossible task. That’s why we’ve put together three simple steps that allow you to simply and easily configure your perfect Middleton cabin from top to bottom.

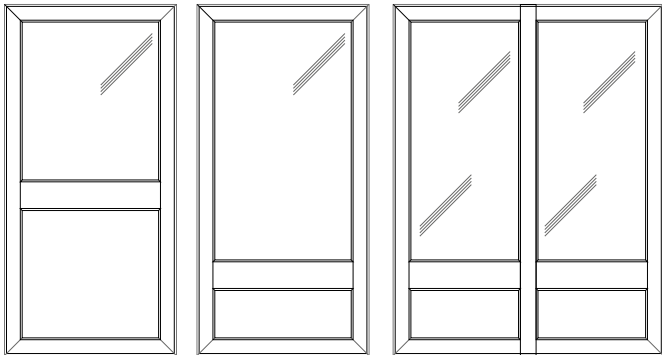

STEP 1

Pick the size of your cabin.

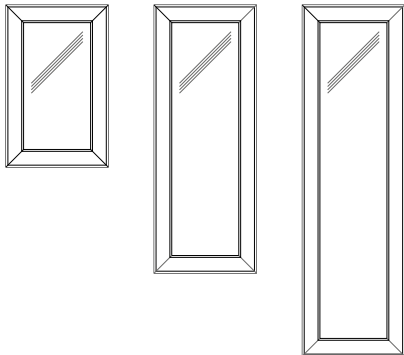

STEP 2

Pick your door.

STEP 3

Choose your windows.

Then sit back, relax and leave the rest to us!

The **Arcadia**

The only limitation is your imagination

The Arcadia is a stylish and contemporary cabin designed with an unobtrusive sloping roof and a fully-glazed front. Utilising the same 45mm log as our traditional cabins, but with a different 'post & panel' construction method, the Arcadia can be supplied complete with electrics, lights and an insulation package to enable year-round enjoyment.

Whether you're dreaming of a place to entertain guests, or you are a modern professional requiring a work-from-home studio, the Arcadia can become a true living space in your garden.

- Contemporary, sloping roof design
- Potential to be fully insulated for year round use
- Totally bespoke build from planning to construction

The Highfield

The shed of sheds

Whether you need a secure place to store your mountain bikes, work your lathe, or perfect that homebrew, the Highfield is a practical, versatile cabin designed for doers.

We like to think of the Highfield as the most robust, reliable garden shed you will ever own. As a result, the ordering process is equally no-nonsense. Pick the right size for you, position the fully boarded door and window(s) in the cabin front, select an appropriate roof style, and away you go.

Constructed from 45mm solid interlocking timber with insurance grade doors and locks, the range of premium Highfield garden buildings are substantial and secure and are sure to offer many years of flexible service.

- Robust workshop, hobby room, or serious storage
- Two roof styles to choose from
- Simple, off-the-peg sizing and pricing

Available Roof Options

PENT ROOF

HIPEX ROOF

The Highfield Plus

The ultimate flexible workspace

Not all hobbies will fit into our off-the-peg Highfield range. The Highfield Plus is designed to accommodate those with larger pastimes – think garage for a kit-car build, craftsman's workshop or shelter for a swimming pool.

We know every large project has it's own quirks and requirements, so all Highfield Plus buildings are designed to your exact specifications and quoted individually. We will even provide a scaled CAD drawing showing what your design would look like.

- Large footprint workshops, garages + much more
- Tough, durable and functional
- Totally bespoke build
