

3 STEPS TO PROTECT YOUR WOOD WITH PROTEK

ADD SOME COLOUR TO YOUR LIFE!

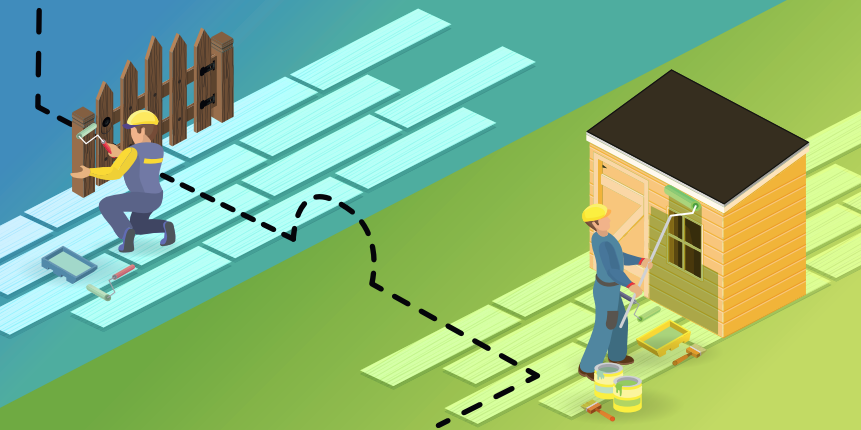

EARNSHAW'S

GOOD WITH WOOD, GREAT IN YOUR GARDEN!

STEP 1

PREPARE AND PRESERVE

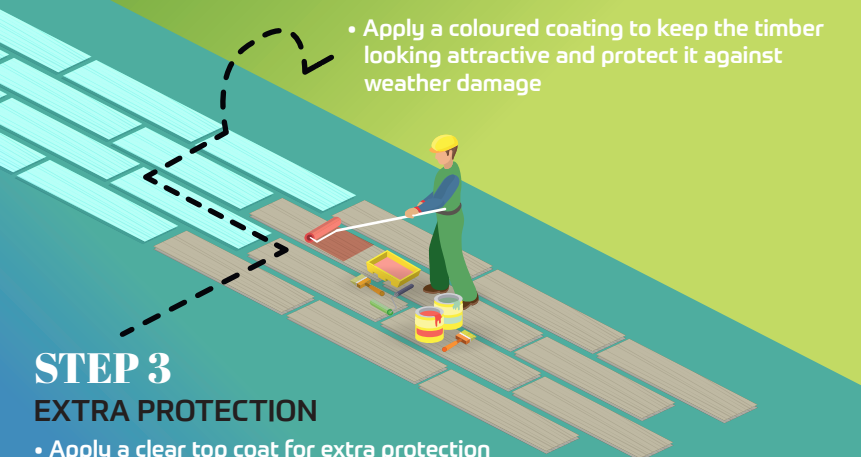

- Sand, clean & dry
- Apply wood preserver to protect against rot & fungi
- Apply knotting agent or stain blocking primer

STEP 2

COLOUR AND PROTECT

- Apply a coloured coating to keep the timber looking attractive and protect it against weather damage

STEP 3

EXTRA PROTECTION

- Apply a clear top coat for extra protection in areas that are subjected to high weather exposure or to seal a coloured coating
- Apply an algaecide/algae inhibitor on top of coatings in areas that are prone to algae growth
