

# How to Choose Your Christmas Tree

Measure your room height – don't forget to add on the height of a stand.

Make sure your tree is a safe distance from radiators and open fires!

## Nordmann Fir or Norway Spruce?

Choose Norway Spruce for the classic Christmas scent and full pyramid shape.

The Nordmann Fir has 'low needle drop' compared to the Norway Spruce.

Nordmann Fir needles have a thick waxy coating, better for people with allergies.

Try our handy delivery service to avoid a car full of needles and a damaged tree in transit!
